Condair GS OC

Outdoor Gas-Fired
Humidifier

-40°C? No problem.
Tested to start-up and humidify
during the coldest of winters.

Humidification, dehumidification
and evaporative cooling

Extensively tested, and designed to work in freezing temperatures.

The Condair GS OC gas-fired humidifier features a weather-proof cabinet that is completely integrated with familiar GS Series components and operation.

The GS OC is designed to cold start at -40°C (-40°F) and survive ice, wind, and snow events. The unit also features extensive IP testing and has a rating of IP 55 for dust and water ingress protection.

Optional:
Roof Curb

Two models, for any climate:

Cold Climate
-40 to +50°C
(-40 to +122°F)
IP 55

Moderate Climate
-20 to +50°C
(-4 to +122°F)
IP 55

GS OC 50

Technical Details

Model	Capacity lb/hr	Dimensions L x W x H (in)	Cold Climate		Moderate Climate
			120V/1/60	208V/3/60	120V/1/60
			Breaker Rating (A)		
GS 50 OC	50	39 x 35 x 68	25	15	20
GS 100 OC	100		25	15	20
GS 150 OC	150		25	15	20
GS 200 OC	200	49 x 35 x 68	40	20	25
GS 300 OC	300		40	20	30
GS 450 OC	450	75 x 35 x 68	50	20	30
GS 600 OC	600		60	20	35

Models available with integrated outdoor cabinet (OC):
 CS – Condensing High-Efficiency
 NX – Condensing High-Efficiency, Low NOx SCAQMD certified
 MT – Non-Condensing Mid-Efficiency
